

Challenge

The machine room was earlier equipped with a 100W halogen machine and workplace luminaire. The lighting resulted in high energy costs, frequent replacement of the lamps and high maintenance costs. Due to the use of classic transformers with high internal consumption and strong heat generation, the light was not stable and made the required visual performance difficult.

LED Lighting Concept

The conventional lighting was replaced by a BuR Lighting 7W LED machine luminaire, which is very versatile due to its hinged arm with screw-fixed base. The installation effort was minimal. The result was a very energy-efficient lighting system for the machine room that meets the standards. The LED-lighting led to a significant increase of the light quality.

BuR Lighting Lighting Design

BuR Lighting designs for the illumination of machine workplaces are based on:

EN 12464-1 Norm

Illumination of Indoor Workplaces

ASR A3.4 Workplaces Guideline

Technical rules for the illumination of workplaces

Lighting Quality

- Smooth LED illumination
- Precise illumination of the machine room
- Average illuminance: $E_m=1.000$ Lux
- High uniformity of illuminance
- Pleasant light colour: 4.000 Kelvin
- Very good colour rendering: $R_a>80$
- High visual comfort

BuR Lighting Luminaires

- Article: LED-Maschine Luminaire
- Art.-No.: 2717007Z03540NN
- Index of Protection: IP65
- Screw fixed base: plastic, robust
- Pushbutton Switch on the Luminaire Head
- Wattage: 7W
- Input Voltage: 230V
- LEDs: SMD-Placement
- Beam Angle: 35°

Savings and Benefits

- Flexibly applicable LED luminaire
- Easy installation with 1200mm cable length
- Optical cover made of Tempered Glass
- Electronic LED driver
- High-frequency Control of LEDs
- LED Life Span: 50.000 h
- Luminous Efficacy: 75 lm/W
- High Energy- and CO₂ Savings p.a.
